

Introduction to Anthroposophy

Rudolf Steiner's Renewing Insights

A short course over two weekends

A unique opportunity to discover Anthroposophy - the Wisdom of the Human Being - through talks, discussions and artistic workshops.

Ever wondered what lies behind Steiner's Educational impulse, the extensive Biodynamic farming movement, or the many other practical endeavors that he initiated?

- How did he reach these insights and can we also develop similar insights?
- How important is it to understand the threefold or the fourfold organisation of the Human Being, and in what way are we truly spiritual beings?

This course provides an accessible introduction to his ideas and his practice of inner development. In workshops you will experience the healing potential of the Arts enlivened by Anthroposophy.
